The Line of March.

The line of march was North on Main street to Fourth avenue; East on Prospect avenue to North Bluff street; south on North Bluff street to East Milwaukee street; west on Milwaukee street to Jackson street; north on Jackson street to Mineral Point avenue; west on Mineral Point avenue to Pearl street; north on Pearl street to Highland avenue; west on Highland avenue to Oak Hill avenue; north on Oak Hill avenue to the cemetery.

Dr. Whiting filled the post of chief marshal with soldierly bearing. His saddle, hat, card and sash told of service from 1861 to 1865. Colonel William Ruger was in full uniform and others of the assistant marshals were partially uniformed.

At the cemetery the exercises were arranged as follows:

Music.....Imperial Band
Prayer.....Rev. Robert C. Denison
Song.....Male Quartette
Scripture Reading.....Mrs. O. H. Brand
Music.....Y. M. C. A. Band
Address.....A. E. Matheson
Music.....G. A. R. Drum Corps
Song....."America" Quartette and Audience

Alexander E. Matheson, the speaker of the day, spoke eloquently, in part, as follows:

"Once more the sun has run his annual course, and again the passing seasons have brought the day when we pay special tribute to the veterans of our republic. We meet again on a day that our government has wisely set apart for the commemoration of deeds of valor, and in memory of our departed soldiers. We come to honor our sacred dead; to express the thanks of grateful hearts for the lives of you who remain among us with constantly lessening numbers; to renew our pledges in the cause of liberty and true progress; and to hope that 'Fraternity, Charity and Loyalty' may be in a larger and deeper sense than heretofore the motto and watchword of our people.

Rejoice in Freedom.

"Let us rejoice in this day because of the happiness and freedom of which it reminds us. Let us shed our silent tears as we remember the loved ones and comrades who have, with their lives, pledged to us and our posterity the inestimable privileges which we enjoy. As the lengthening shadows shall remind us of the passing day, may we feel that the well-springs of our hearts have been opened and purged afresh, and may we go to our tasks tomorrow with more gratitude, larger hopes, higher aspirations, broader charity and nobler endeavors, because of this Memorial day. As we meet in remembrance of liberty and patriotism, let us recuperate our power for the great contests and mighty problems of the present and future.

Great Are Our Responsibilities.

"We live in the present, and we can but catch the fleeting moments, using them as wisely as we may. But, upon such an occasion as this, we are forcibly reminded of the fact that we are links connecting the past and the future. The past has been made glorious by our fathers, from whose loins we have sprung; the future is to be made triumphant by our use of the present and by the heritage we transmit to our posterity. Great, then, are our responsibilities to use wisely and courageously the splendid privileges which have been won by the labor and blood and lives of our ancestors.

"We cannot too often honor the statesmen and heroes of the past. The broad and deep foundations of our society have been laid with unconquerable zeal, intense hardship and heroic sacrifice on the part of those who have made the history of our country. Their work has been marvelous, their foresight prophetic, their heroism unequalled by man anywhere. We owe them much.

"From the Battle of Lexington to the close of the mighty and destructive war drama in which your brave and honored veterans have such a conspicuous and important part, in war and in peace, in the halls of legislation, in the executive chair, and upon the judicial bench, at home and abroad, our fathers have lived and labored, bled and died, for civil freedom and religious liberty. You have had a part in this, who justly wear the Grand Army button today. Large ought to be our gratitude; great ought to be our appreciation; wisely should we emulate your heroism and patriotism; happy should we be in the sunshine of

so much liberty and joy as we have today.

"This is an occasion where we honor the rank and file of the armies of our land. But a little more than a month ago the remains of General Grant were conveyed to their last resting place and deposited in a tomb worthy of such a hero above the noble Hudson and within sight and sound of the commerce of many nations. The whole country paid tribute to this distinguished general and pure citizen. We recognize him as the greatest commander of the civil war, and one of the greatest of all times. In honoring him we honor the nations and the principles for which so many of your comrades have given their lives. The remains of Sherman and Sheridan, McClellan and Hancock and Logan, repose in the hearts of our people. We Honor Them All.

"But, today, we honor the American veteran; not any general or leader, but the whole body of noble men who made it possible for Grant to move on to victory, and among whom thousands were as heroic, patriotic and self-sacrificing as the generals who lead them. In the memories and purposes of this hour rank and distinction are abolished and we consider all alike worthy of our thanks and praises for the services they have rendered.

"Thus are we led to speak of the people of our land; not of the privileged and wealthy; not of those who have official titles or sit in places of distinction; but the great body of the American people, who have made our country what it is, and who must make it what it is to be in the coming years. For back in the course of the centuries when those who founded the Anglo Saxon race were in the dense and wide stretching forests of Germany, they existed under the forms of a pure democracy, the immediate and direct work of the people.

What Made the Race Great

"From their number they chose the largest and strongest man for their leader the man best fitted, under the conditions of the times, for leadership and control. These principles of government, allowing equal rights to all and permitting no arbitrary distinctions, these ideas of equality and liberty, have made the Anglo Saxon race the greatest civilizers of all the ages; and from such we have derived the most wholesome, the most beneficent portions of our social structure. We have lately been thrilled with the heroism of the modern Greeks. Although overcome by numbers and outwitted by the combination of stronger figures they have furnished as an example and made sacrifices which will not be lost to the cause of liberty. The ancient Greeks have left to us a record of great achievements. In war, in literature, in arts and in philosophy, they made themselves remembered. In war they met and defeated the hosts of Persia, making Marathon be remembered, so long as liberty shall inspire men to noble deeds. In literature, art, and philosophy, they continue to teach the world. The reason for these things was that the people were free. Ever man, who was a Greek, was able to develop the best in him, and the cause of the Greek nation was that of liberty for the whole people; and not the occasion for the enrichment or social elevation of privileged classes."

Mr. Matheson's address was a rarely forcible and scholarly one, and The Gazette is sorry that the lateness of hour prevents its publication in full. In closing he said:

"Another Memorial day is about to pass into history. We gladly lay our wreaths upon the graves of your dead comrades, upon the graves of our sons and husbands and brothers and fathers, and for them we shed tears from sincere and grateful hearts. They have passed from the strife and contest, and having done well their part are at rest in their last bivouac. God grant that we may preserve what their lives have made sacred. We grieve with those whose wounds are opened again today. The widow is lonely and longs for a reunion with the loved one; children feel weak and defenseless because the father's strong arm is no longer to protect in its loving embrace. But sorrow is for us all, and out of the sacrifice of the dead and the a glimpse of the living we shall all come with purified characters into the presence and love of our Maker.

"The ranks of the veterans grow thinner and thinner as the years pass away. May we not forget to honor you while you remain. We thank you and we glory in your heroism. May the years grow sweeter to you as the net of life is spun, and may your tired and shattered body find rest among a grateful people. You have made it possible for us to be a free, happy, united people. Let us all,

from rock bound Massachusetts Bay to California's golden gates, from Texas's waters play to where they plunge and palpitate a thousand happy leagues away," rejoice in a nation united in all its parts.

"With our song of sadness there should be a note of triumph. Our past has been glorious; the future may be even more so. It is a day of special inspiration for the young. Many are life's problems. There is a summons to duty, if not to arms. The cause of the people is sure, and God's promises do not fail. Forward, then, one and all. Advance to the glory and happiness that are being prepared for us. The East is bright with the glow of promise; let the moon day be made dazzling and brilliant in the triumph of truth and the realization of our dreams."

HEAVY FROST DID DAMAGE

Many Farmers Will Have To Re-Plant Corn.

A heavy frost prevailed last night in certain sections of the county. Extensive damage was done to crops, and especially to corn. In the low lands south of this city damage was most noticeable, and in sections adjoining Afton many farmers may have to re-plant their corn.

CUPID'S PLANS CONSUMED

Heidbrink—Keating.

At St. Patrick's church this morning at 9 o'clock, Rev. E. M. McGinnity pronounced the words that united as husband and wife Henry Heidbrink and Miss Josephine Keating, both of Chicago. Following the ceremony a wedding breakfast was served at the home of Mrs. E. Katherine Keating. The bride is a former Janesville woman, and is the daughter of Mrs. Mary Keating. The groom is a well known and wealthy Chicago groceryman. They leave for Chicago this evening.

The Y. M. C. A. Meeting.

The mens meeting at the Y. M. C. A. rooms was of exceptional interest yesterday afternoon. There was a large attendance and Fred H. Terry, of Milwaukee, a traveling man well known in Janesville, spoke from the standpoint of a commercial traveler. His talk had a practical quality that won close attention. Mr. Terry was followed by J. J. Williams, of Mansfield, state factory inspector, Mr. Williams speaking in behalf of the Y. P. S. C. E. movement started in the Wau-pun penitentiary. Contributions toward the purchase of bibles for the convicts were requested.

Train Kills Four Children.

Denver, Col., May 31.—At 8 o'clock Sunday night a spring wagon driven by Henry Marsau, a carpenter, containing eight children ranging in age from 3 to 9 years, was struck by a special train on the Denver & Rio Grande railroad. Four of the children are dead and the others are terribly injured, two so badly that they will die.

Minors Cannot Hold Office.

Washington, May 31.—The policy of the postoffice department as to the appointment of minors in the postoffices has been definitely fixed, and they will be debarred from chief clerkships and deputy postmasterships except in a few of the third-class offices where circumstances urge their peculiar fitness. Even then they will not be allowed to become acting postmasters on account of the legal declaration that contracts made by minors are voidable. This effectually bars them from being even temporarily postmaster, so far as the assumption of the real responsibilities of that office are concerned.

Interest in Denver Meeting.

Denver, May 31.—The correspondence at headquarters of the International Gold Mining convention, to be held in Denver July 7, 8 and 9, shows that great interest has been awakened throughout the entire United States among practical mining people and those interested in mining enterprises. It is now assured that the gathering will be an aggregate representation of the genius and wealth devoted to the production of the precious metals in

North America, while representatives of the South American republics have given assurance of their attendance.

To Inspect Soldiers' Homes.

Washington, May 31.—The board of managers of homes for volunteer soldiers will meet here Wednesday, and after the conclusion of the routine business will start on the annual tour of inspection of the homes. The board goes first to the central branch at Dayton, Ohio; thence to the Marion, Ind., branch; to the northwestern branch at Milwaukee; the western branch, at Leavenworth, and then to the Pacific branch, at Santa Monica, Cal.

Bicycle Goods Factory Burned.

Greencastle, Ind., May 31.—The Greencastle Manufacturing Company's large plant near the Vandalia railway depot in this city was destroyed by fire Sunday. The company employed fifty men, and was rushed with orders on bicycle rims and handle bars. The loss is about \$30,000. The insurance is \$9,000, divided among the Hartford, North American, Pennsylvania and Franklin.

Fight for Holman's Place.

Indianapolis, May 31.—The Democratic convention of the fourth congressional district to nominate a candidate to succeed Judge Holman, will meet at Columbus Thursday, and the struggle for the honor promises to be not only long but bitter. There are ten candidates now in the field and at least eight of these will be before the convention.

Distinguished Men at West Point.

West Point, N. Y., May 31.—Many distinguished officers of the United States army and other invited guests were here to attend the dedication ceremonies of the battle monument today. Among the number are Secretary of War Alger, Adjutant General Ruggles, Brigadier General John M. Wilson and General George S. Green, the oldest living graduate of the military academy.

NEWS OF THE CHURCHES.

Two most impressive services marked the parting of Dr. M. G. Hodge from his congregation and from the united congregations of the city. There were few dry eyes in the Baptist church Sunday morning, and the scene was painfully affecting. In the evening the galleries and main floor of the Congregational church were filled to overflowing, many turning away disappointed. Eloquent expression was given to the thought suggested by Rev. Dr. Thompson that the retiring pastor was one who belonged "not to any particular church but to the people of Janesville."

In the morning Dr. Hodge extended the right and of fellowship to ten members received during the last month. The sermon of the morning had for its theme "The Everlasting Gospel." In substance, Dr. Hodge said:

The word gospel is a very precious one. It means glad tidings, or good news.

You go to a prisoner in the prison cell with a pardon and you take a gospel to him. Here, in Christ, is justification to a guilty sinner, is it not good tidings? This gospel is to be preached. Christ gave his as his last great commission, "As ye go, preach." While there are men who are ministers to preach it is not confined simply to ministers. All who know the power of the gospel can preach to others. It is a glorious gospel. It is the only true gospel. It is an everlasting gospel. It reaches on forever. It is everlasting, in contrast with the things given previous to its advent. The bright sunrise of Eden was of short duration. The Jewish dispensation was of Moses did not last long. All of these preceding dispensations were short lived.

Go on Forever

This gospel is everlasting in contrast with its heroes and advocates. They pass away but the gospel still lives on. The Washington monument still stands, but the men who built it have passed away. So it is in regard to the gospel. Men who preached in the years gone by have passed away, but the gospel still lives in its life and vigor.

The gospel is everlasting in contrast with the men and women who have been its advocates. They are gone or are passing away but the gospel will still live on forever.

The pastors who preached so acceptably in the years now gone, are passed away, but the gospel they preached is still living and accomplishing its blessed work.

The gospel is everlasting in its benefits to those who receive it. It is not for this life only, but it reaches into eternity. Let us learn:

1st. Not to be looking for some other or newer gospel. There may be new methods to spread it abroad, but it is the same gospel.

2nd. We may not fear any decrepitude in the gospel. Men will grow old and feeble, but the gospel never.

3rd. The mere incidentals of the gospel may change, but the gospel is the same. A new man can give you the same glorious gospel.

4th. Do not miss your share in the benefits of his everlasting gospel. It is yours if you will receive it.

Before the sermon, prayer was offered by Dr. H. A. Palmer, and there was a solo by Mrs. J. W. St. John.

The Union Service.

When Rev. Mr. Denison arose to give out the opening hymn at the union service Sunday evening, there was not a vacant seat in the church, each aisle held a line of chairs, and the galleries jutted out from three sides as solid black masses. Following the hymn and the invocation by Rev. E. H. Pence, the greetings of the First M. E. church were extended to Rev. Dr. Hodge by Dr. H. W. Thompson, who could not be present at the reception.

Dr. Hodge's parting address had nothing of formality. It was a simple, earnest talk to friends. Referring to the title "Observations of a Half Century in the Ministry," he said: "About such a pastorate there is a sentimental side—a side that looks toward sentiment and tears—but I do not dare to contemplate it, cannot trust myself to discuss it."

He dealt, therefore, with such practical reflections as suggested themselves and said in part:

One of the lessons I have learned is that proportionate giving is a great promotion of brotherly love. We sometimes feel unkindly towards others who do not do their part.

Again, those who hope to get something for nothing generally get nothing. If you would have a revival, it will cost you something. Until we are willing to make sacrifices we can not expect great spiritual results. This also applies to individual life. When we are willing to part with sin, we will mount the heights of holiness.

Unreasonable expectations often

bring great disappointments. The pastor does not always know when he is needed. You may have to treat him as you would the doctor send for him.

I have noticed that it is not always best to beat the servants when the Lord does not send the blessing. We sometimes beat each other when it is not best. We can coax better than drive.

With each year I have been more convinced that he who would be a leader must first have the confidence of those who are led. The confidence goes before successful leadership. Let men know you are honest and sincere and they will follow you.

I give thanks daily that it is possible for brethren of different denominations to live in harmony, and that the thought of abusing one another is fast passing away.

True Christians are one in heart. We have had many sweet exemplifications of these beautiful ways of living, in this city, may it never be otherwise.

Dr. Hodge closed with the declaration that care and trouble vanished when faith in God was absolute.

"Father knows all about that and everything will be all right," says the child after confiding his trouble to his parent. So it should be with the Christian. God knows of ways to lead out of trouble that we know not.

The directness and earnestness of Dr. Hodge's remarks had a marked effect on his hearers. There were manifestations of feeling throughout the audience, and at the close of the service many pressed forward to express their appreciation.

It was announced from the pulpit that the reception given by Dr. and Mrs. Hodge would begin at 7:50 sharp this evening in the auditorium of the Baptist church.

The Congregational Church.

Yesterday morning at the Congregational church, Memorial Day was remembered in music, vocal and organ, decorations and sermon theme. The pastor spoke on the necessity of Christianity to liberty. Political liberty had its use in Christ's idea of a man. Only when society believes that every man, regardless of social condition, has something in him which is worthy of trust, does universal suffrage prevail. As long as Christ's idea of the possibilities which every man has, influences society, there will be liberty. Christianity is essential to liberty, because the only liberty is liberty of soul. It makes little difference if a man is free to go and do as he pleases, if his mind is stained with untrue thoughts, which he must carry with him everywhere unless we are free in our inner life, we are not really free. Christianity is essential to liberty because it unites liberty and love. A society in which each man demands his own rights, will end in collision and struggle. Liberty without love is selfishness and the machinery of selfishness will not run long. Christianity introduces into society the benevolence and self devotion of the teacher, the missionary, the philanthropist, and the love which these give to others saves our national life from the jealousy which must arise in a liberty that considers only its rights. We do not hope that our children will be free because this nation is rich and great. Greatness and riches do not keep liberty safe. The lovers of men are the preservers of liberty, and Christianity is love. Christianity is founded on liberty, that is, the freedom of every man to choose for himself life or death. It has steadily held to the idea that, in spite of heredity and circumstance every man can have life if he will. The prayer meeting subject for Thursday evening will be "God's Forgiveness and Ours."

Court Street M. E. Church.

Presiding Elder F. A. Pease occupied the pulpit at the Court Street M. E. church yesterday morning and though suffering from a severe cold preached a very excellent sermon. His text was selections pertaining to the last supper and his topic the significance of the communion service, which was about to be observed.

The speaker said that we could not become too familiar with the life and character of Jesus Christ. A study of His life inspires confidence in His helpfulness and His sublime attributes.

Had we been present at the night of the last supper in the upper room we would have been impressed with His thoughtful solicitude for the friends who had been closely associated with Him. Precious moments in the closing hours of His life! This service established by Christ and observed in various forms by the Christian world today is full of significance to me.

We eat the bread and drink the wine by faith.

The observance of this sacred feast recognizes the brotherhood of man and cultivates the spirit of broad Christian charity.

The table spread today is for all who believe in His name. Members of any church, or no church, come today and partake of the emblem that represents the death and suffering of our Lord Jesus Christ.

The church united in the union service at the Congregational church in the evening.

Dr. Olin A. Curtis will serve the church during June and July commencing next Sunday morning.

Confirmation of Episcopalians.

In both Christ church and Trinity church confirmation services were conducted yesterday by the Right

Reverend Bishop Nicholson. The services at Christ church were in the morning, and a class of thirteen was received. Bishop Nicholson's sermon was from the text "Lord if Thou Wilt Thou Canst Make Me Clean."

At Trinity church last evening the rite of confirmation was administered to a class of ten.

GOOD SHOWING OF NECKWEAR

Zeigler's stock Complete Enough For the Most Critical Purchasers

It is no modest effort to enter a man's outfitting store and select a necktie that conforms exactly with one's fastidious ideas. The fact is the picking out of suitable neckwear is one of the hardest tasks a man has to contend with in completing his dress. It is so much more satisfactory to have a large and varied stock to select from when one is making purchases. Such a stock is that of Zeigler's. It is equal in not in Rock county. From the simple little white dress tie to the more pretentious Ascot, four-in-hand or Teck in all the variegated shades and colors for the spring season are to be found in this stock. Beautiful band bows, string ties, Tecks, four-in-hands, Ascots, DeJolavilles in new and beautiful designs from 25 cents to \$1.50. No trouble to make a selection for the everyday or Sunday wear for the fair or dark man, the light or dark suit, for morning noon or night, in fact, for any dress or any occasion. This spring's coloring and shapes are extremely pretty and Zeigler's stock has been selected with greatest deliberation and care. Many of the styles may be said to be individual and appeal directly to particular men. Eastern markets have been searched for late patterns and Zeigler's cases show how well this search was conducted. Neckwear for the boys is not slighted in the least and the elegant line of puffs, tecks and large reefer bows in fancy colors from 25 to 50 cents would not only please the mother of the boy but the boy himself.

Zeigler's handkerchiefs are well known to almost every Janesville man. Those with the fancy borders from 15 to 50 cents are big value. There are also fine linen hemstitched handkerchiefs from 25 to 75 cents that are good enough to grace the dresser of any man. An elegant line of fancy bordered and white hemstitched silk handkerchiefs from 50 cents to \$1.50 to be found always in stock.

Zeigler has always paid special attention to men's shirts; shirts that fit the lean man, the tall man, the stout man or any other kind of man. There is no neck of having shirts made to order. Among the stock of shirts that Zeigler carries there are many different sleeve lengths, quite as many as there are arms to go in them, as many neck bands as necks, as many different lengths and widths of bosoms as chests; some with cuffs attached, some without, some open at the back and open front, some open all the way down the front some white, some colored, for dress, for business, for usual size men and for unusual size men.

Elegant soft bosom shirts in colors with neck and wrist bands for white cuffs and collars, are the prevailing style for this season. For the man who likes soft shirts, Zeigler is prepared; for the man who likes a negligee shirt there is an immense assortment. You can have flannel shirts, linen shirts, shirts with collars and cuffs or without them, in fact, any shirt you ever heard of. Prices range from 50 cents to \$2.50 and our word for it, your money's worth in any of them. The store is the most complete furnishing house in southern Wisconsin and we also try to have everything seasonable and up to date, any many people trade with us for this reason. You will find us all ways dependable in quality as well as in price.

Charge Less For "Know How."

The tailor called upon to explain his \$40 bill, if honest, would say \$20 for cloth and work, \$20 for "know-how."

We give the know how; but charge less for it.

Best suits \$18 to \$28; good ones, for young men, as low as \$10.

Bicycle-golf suits from so many different cloths there's little danger of meeting yourself; breeches sold separately. Suits \$4 to \$12.50

T. J. ZIEGLER.

RECEPTION FOR DR. HODGE.

Farewell Will Be Said at the Baptist Church This Evening.

The farewell reception to be given this evening at the Baptist church parlors, will be preceded by a meeting in the auditorium, to commence promptly at 7:30 at which Rev. F. A. Pease, Rev. E. H. Pence and Rev. R. C. Denison will give short addresses, and which will be closed by parting words from Dr. Hodge. Miss Cora Anderson will sing and the Mandolin club will play. After the exercises in the auditorium are closed, the reception to Mr. and Mrs. Hodge will be given in the church parlors. All friends of Dr. and Mrs. Hodge are cordially invited.

Clothing For the Boys.

For boys who want a good suit for every day, and handsome enough for "second best," we can recommend our navy blue chevrot-finished serge, all wool, color absolutely fast, and which we sell with guarantee of satisfactory wear, for \$5.

We also use the same carefully tested material in suits for boys, 14 to 18 years, with long trousers, for \$10.

In every detail of fit and finish these suits reach the standard for boys' clothes, attained here where they are designed, cut and made by boys' tailors.

Our boys' and children's department is a source of much pride. T. J. Zeigler.

MAY HAVE THE MEN
WHO FORGE CHECKS

MILWAUKEE POLICE MAKE ARRESTS AT RACINE.

As the Suspects Have Been at Work in Cities From Which Bogus Checks on the Local Bank Were Forwarded, It Is Suspected That They May Know Something About Them

The Milwaukee police may have the men who forged the checks passed at Racine, Milwaukee and Madison, that turned up at the Merchants' and Mechanics' Savings bank, purporting to have been drawn by J. S. Spellman, in the persons of George H. O'Connor and Paul A. Dragarius who profess to be former commission merchants of Chicago, where they say they had an office at 276 South Water street. The two men are under arrest on the charge of forgery. They were arrested in Racine while trying to pass a forged check and taken to Milwaukee at once. Dragarius said they came to Milwaukee from Chicago Thursday morning, but O'Connor told Detective Peck that they came to Milwaukee last Monday. It is also said that they were seen in that city during last week by officers. They were arrested while passing a check purporting to have been signed by F. C. Meinecke. The check was drawn on the Marshall & Halsey bank for \$18.79 and was made payable to O. H. Luetz. Dragarius, who had the check in his possession, says he cannot remember where he got it.

Float Paper At Milwaukee.

Early in the week half a dozen checks, drawn on the same bank and purporting to have been issued by O'Donnell & Cook, were passed on merchants in Milwaukee. The checks ranged in amounts from \$13 to \$30 and were presented for payment by two men answering the description of the two prisoners. The men at the time the checks were passed were dressed as masons and carried dinner pails to give them the appearance of workmen. Some of the victims of the forgers will be called to the station with the view of identifying the prisoners. O'Connor says he is 24 years of age and gave his occupation as a salesman. In his satchel at Racine a blank check on the Marshall & Halsey bank and also a paper on which the impressions of a check perforator had been tried were found. Dragarius is 28 years of age and says he is a salesman.

Whether or not these men forged the checks at the Janesville bank is not known. They appear to have been working quite systematically, however, and as bogus papers were sent to the Janesville bank from both Milwaukee and Racine, in which cities they had worked the inference is that they may know something about the transactions.

Dragarius will be taken to Chicago for trial. He was identified as the man who circulated forged checks in Milwaukee, but the Chicago authorities have more serious charges against him, and it was therefore decided to surrender them. It is said he circulated many checks in Chicago.

CALL ON DR. AND MRS. PALMER

Dentists Surprised Them at Their Home in Forest Park Saturday Evening.

Dr. and Mrs. H. A. Palmer were very pleasantly surprised at their Forest Park home by several of the dentists who came in Saturday evening and reminded them that it was the fifteenth anniversary of their marriage. They left a beautiful token to commemorate their visit, which was very much appreciated by the doctor and his wife.

Dainty
Parasols...

It's decided'y a season of novelties.

We have prepared for great selling with a lavish hand as regards assortment of styles. Every woman can have a Parasol distinctly different than her neighbor's.

The
Children--

Can be made happy at small cost. Nothing gives a little girl more delight than to be the proud possessor of a Parasol "all her own to keep."

Settling the

Carpet
Question...

It shouldn't require much persuasion to induce one to buy Carpets now. It needs no argument to prove that the day of low priced Carpets is near its close. There is a stock of superior Carpets in this store at present; prices were never so low. It is probably the last chance you or we will ever have to enjoy such values.

Dainty
Wash Goods

Trifling as they are, are summer necessities. Summer is a terror for those who don't prepare for it; it is an ideal season to those who dress rightly. There is an exquisite line of dainty diaphanous stuffs here, calculated to keep out the heat and let in the breeze. Their cost is trifling, their comfort immeasurable.

Many Men--

Do not know that at this store can be found the very best unlaundered Shirt made for 50c retailing. You can not beat it. It is so good that not a few buy it in place of dollar Shirts. Be a wise man and see our great 50c Shirt before laying in another stock.

FINE BICYCLE CLOTHING.

Zeigler Has Individual Styles and Patterns For Wheelmen.

When a man buys clothing for cycling, golfing or other outdoor sports the first thing he thinks about is the cloth. He wants suitable fabric of appropriate and stylish pattern, attractive goods that will stand hard wear, and colorings that will resist weather and dust. The next thing he considers is the making. He wants to know that the suit will fit, that it will hold its shape and look right when he puts it on. Another thing—the cyclist may not care how many riders have wheels like his own—but he seeks individuality in his costume. When he wears his suit he does not care to see one of similar character on the back of every third wheelman he meets. The price, too, is an important consideration. Now, the success of the T. J. Zeigler line of bicycle clothes this year is due to the fact that they are made according to the wheelmen's idea of what a wheel suit should be. They please the rider and that is everything. The commendation of wheelmen as a class is the strongest endorsement that a line of bicycle clothing can possibly have. Zeigler's suits have this.

As to the making of the best suits shown this year—The coat has well seams, double stitched edge, three patched pockets outside with flaps and buttons, pump pocket and one ticket pocket inside both with flaps and buttons. The pants have two hip pockets with flaps and buttons, cord seams, straps and buckle at the knee, double reinforced seats and four loops for the belt. The seams are sewed with heavy silk thread, the cloth is thoroughly sponged and shrunk before cutting and skilled workmen are employed in the making. Shape and beauty are worked into every garment by careful and conscientious tailoring. These are mere details. Whether greater credit belongs to the designer or the tailor, the result of their work is that the suits possess a fine originality that separates them from everything in the usual category of outing apparel. They are tasteful distinctive, and while there is nothing loud or conspicuous about them, they have a style and grace of their own that set off the wearers figure to advantage and distinguish him in any company of riders as a man well and appropriately dressed.

Out of nearly two hundred styles about thirty have been selected, making an assortment which has proved most popular and from which any taste can be satisfied. For example there are the following:

Gray English tweed bicycle and golf suits of pure wool, in three shades of light, medium and dark gray, with single cardinal thread and a touch of green. An exceedingly rich but modest combination that has been greatly admired.

Dark brown broken plaid, all wool Cheviot golf suits, striking pattern of dark brown plaids, very stylish.

Rich tan mixture, with faint cardinal cross bars.

Medium olive brown mixtures, with amber thread, also invisible plaid, in dark red, brown, and russet tints.

Fancy gray invisible plaid Scotch cheviots, styles that are not to be surpassed for beauty and durability. They show their superior quality.

Fancy cheviots in dark gray back grounds, with brown cheeks and small scarlet threads; also striking invisible and broken plaid cheviots from the Scotch looms.

The new olive and brown shades, Scotch patterns in combinations of rich tints, checks, broken bars and invisible plaids; high class in every particular and tailored as befits their quality.

All wool Canadian homespun light tones overshot with tan a popular and stylish thing.

From this line as will be seen the most critical can be satisfied.

The Zeigler bicycle suits attracted no end of attention as one variety after another has been shown in the display windows this month, and it is a frequent comment "there goes a Zeigler suit" as a rider especially well attired spins by on his wheel. No attempt has been made in the list just given to indicate the full extent of their stock and a visit to the department will richly repay you.

The line of suits is supplemented by a line of bicycle and golf caps that surpass in richness anything which the city has seen in past seasons. The McGeorge imported golf stockings have also added tone to the display and make the Main street window very attractive.

MANY SAW THE BALL GAME.

Janesville People Visited Beloit and Rockford Saturday and Sunday.

When Janesville sends a delegation numbering over one hundred to Beloit and Rockford to see ball games it begins to look as if the base ball enthusiasm of twenty years ago had been revived. At Beloit Saturday afternoon, fully one hundred Bower City representatives witnessed the defeat of the Beloit team by their Madison rivals. At Rockford yesterday afternoon sixteen Janesville "rooters" yelled themselves hoarse in cheering "Tom" Morrissey and "Joe" Cantillon, two well known Janesville men, who are now with the Dubuque, Iowa team. In spite of the fact the Forest City team were victorious by a score of 4 to 2. It is estimated that 1500 people witnessed the game. When Morrissey went to bat, he was loudly cheered by his Janesville friends, and a broad smile that stole over his face, showed that he fully appreciated the compliment.

Manager Cantillon, of the Dubuque team, played second base, and but for one hot liner that visited him unexpected, he played an errorless game. The Janesville delegation returned home last evening. Those from this city who saw the Beloit-Madison game at the Line City Saturday afternoon were:

AMERICANS AS A RULE.

Are Not Favorably Disposed Towards Counterfeits.

Either counterfeit money or counterfeit goods of any kind. The U. S. Court, sitting at Rochester, N. Y., has ordered an injunction against the sale of Grain-O in packages made to imitate the original Postum Cereal Food Coffee packages.

The counterfeit in this case was put out in packages having the red seals and much of the wording of Postum, and the nondiscriminating public have given this or some one of the other various imitations when calling at the stores for the original Postum Cereal Food Coffee.

These makers of articles to furnish grocers with which to "substitute" for some original article having little idea of hygienic or food value in a Cereal Coffee. Some counterfeits are offered in place of Postum because the package weighs two pounds, while the genuine weighs but 1½ pounds. One counterfeit two pound package looks like browned rye kernels ground. It is probably harmless enough but no idea of food value is there. Postum is made by skillful food experts, 70 per cent being secured from the parts of the cereals containing the albumen and phosphates required by the human body to rebuild the gray matter in the nerve cells. This part also produces the disasteful which digests starch. That's why Postum "makes red blood" and why thoughtful people use it regularly. Buyers should look for the red seals and the registered U. S. trade mark.

Grocers sell the original and genuine Postum at 15 and 25 cents a package. POSTUM CEREAL CO., LIM., Battle Creek, Mich.

Complexionary Indications.
The complexion of persons whose digestion is out of order, who are bilious, or who lack vigor, always exhibit an unhealthy tint. It is by regulating the bodily organs and promoting digestion and assimilation, that the parchment hue indicative of ill health, is banished from the cheeks. To rectify the fault of a allow complexion, use Hostetter's Stomach Bitters, an invigorant and alterative which removes those obstacles to renewed strength, physical comfort and personal attractiveness—an imperfect digestion and secretion and a disordered condition of the bowels. Persistence in the use of this inestimable corrective and tonic will assuredly result in renewed physical regularity and vigor, will tend to increase bodily substance, and cause the glow and clear color of health to return to the sallow, wasted cheek.

Wonderful Discoveries.

In no science, not excepting Electrical Engineering, has such important advancements been made in the last decade as in Medicine and Surgery. Instruments have been devised by which those experts in their use may look into nearly every cavity of the body and thereby know for a certainty their exact condition. The germ producing various diseases has been isolated and studied and new and certain means of treatment directed to reaching and destroying them have been devised. Coincident with these, new and wonderful remedies have been discovered in different parts of the world, and in the hands of these Specialists familiar with their use, chronic and long standing diseases which have resisted the old methods and remedies are made to yield immediately because the source of the disease is treated, not the result. Physicians who received their training years ago according to the old methods, and have been usually engaged in the practice of these principles ever since, cannot be expected to be well versed and skillful in the vast number of improvements which have recently been made. However good his intentions, however agreeable his manner, he is unfortunately not equipped to achieve immediate results possible to the modern Specialist. Many cases which are commonly considered incurable and given up by friends and Physicians to suffer or die can be rapidly and permanently cured. Dr. Melville's patients are her friends, and their good will and interest is often of greater value than their fee, for her principal practice comes through personal recommendation of cured patients to their friends and acquaintances. The names of her patients are not flaunted before the public.

There is a tragic list of diseases which woman alone may suffer from. Men have their physical distresses, but man is seldom called upon to endure anything so painful, so lingering and tenacious as those distressing diseases to which woman is peculiarly subject and which are especially terrible for the reason that most of them affect the mind as well as the body. They induce irritability, they destroy ambition, and they injure the memory. Ninety-nine out of a hundred women are afflicted with some of these complaints in greater or lesser degree, and so used have they become to pain that they can hardly fancy mortal existence without it. Many of them are women of natural brilliancy, and their possibilities for usefulness would be very great if they were not handicapped by these tormenting troubles.

You can talk freely to a woman doctor when it is revolting to relate your private trouble to a man, besides a man does not understand simply because he is a man.

Dr. Melville makes no pretensions to be a cure every disease and all cases, but she does claim to cure to her patients the benefit of every new medicine or curative device which will favor recovery and to administer them with the greatest skill which exceptional special training and experience makes possible; to give an honest and candid opinion in every case; to refuse such cases as she cannot benefit; to make her charges reasonable, moderate and fair and to secure in every case at least as good result as promised. Dr. Melville's office is at 105 N. Main St., near S. First. Office hours: 9 to 4 and 7 to 8.

THE HEROIC DEAD.

Four score and seven years ago our fathers brought forth upon this continent a new nation, conceived in liberty, and dedicated to the purpose that all men are created equal. Now we are engaged in a great civil war, testing whether that nation, or any nation so conceived and so dedicated, can long endure. We are met on a great battle-field of that war. We have come to dedicate a portion of that field as a final resting-place for those who here gave their lives that that nation might live. It is altogether fitting and proper that we should do this. But in a larger sense we cannot dedicate, we cannot consecrate, we cannot hallow this ground. The great men, living and dead, who struggled here, have consecrated it far above our power to add or detract. The world will little note, nor long remember, what we say here, but it can never forget what they did here. It is for us, the living, rather to be dedicated to the unfinished work which they who fought here have thus far so nobly advanced. It is rather for us to be here dedicated to the great task remaining before us, that from these honored dead we take increased devotion to that cause for which they gave the last full measure of devotion; that we highly resolve that these dead shall not have died in vain; that this nation under God, shall have a new birth of freedom, and that government of the people, by the people, and for the people, shall not perish from the earth.—LINCOLN.

Dr. Angell is Waiting.

Ann Arbor, Mich., May 31.—Dr. James B. Angell says Turkey is now discussing his acceptability as American minister. He arrived at his home in this city from Washington Sunday. A protest against his appointment as minister to Turkey was unofficially made to Minister Terrell by the sultan, and in order to head off any trouble that might arise, Mr. Terrell cabled the state department that the matter was being discussed in Constantinople.

Murdered by Masked Men.

Warren, O., May 31.—In a conflict with three masked men, who were evidently bent on robbery, Isaac Hill, aged 47 years, a bachelor, was murdered at his home on a farm in this county Sunday morning. Mrs. Hill, aged 77, who resided with her son, was bound and tortured nearly to death, but managed to free herself and give the alarm. The murderers secured nothing of consequence and escaped.

Commits Murder and Suicide.

San Antonio, Tex., May 31.—"Bnd" Franks, a horse trader of this city, wound up a drunken spree by murdering his wife and then blowing out his brains. Franks chased the woman out of the house and followed her up the street, shooting as she ran. When the woman fell mortally wounded he put the pistol to his head and fired, killing himself instantly.

Crumpacker Offered the Post.

Laporte, Ind., May 31.—The surveyor generalship of the territory of New Mexico has been tendered to ex-Senate Senator Johnathan W. Crumpacker of this city, but he has not yet decided that he will accept.

Traveling Men to Meet.

Nashville, Tenn., May 31.—Delegates to the convention of the National Travelers' Protective Association, which meets in this city Tuesday for a five days' session, are arriving. Several thousands are expected to attend.

CATARRH OF THE STOMACH.

A Pleasant, Simple, But Safe and Effectual Cure for It

Catarrh of the stomach has long been considered the next thing to incurable. The usual symptoms are a full or bloating sensation after eating, accompanied sometimes with sour or watery risings, a formation of gases, causing pressure on the heart and lungs and difficult breathing; headaches, fickle appetite, nervousness and a general played out, languid feeling.

There is often a foul taste in the mouth, coated tongue and if the interior of the stomach could be seen it would show a slimy, inflamed condition.

The cure for this common and obstinate trouble is found in a treatment which causes the food to be readily, thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach. To secure a prompt and healthy digestion is the one necessary thing to do and when normal digestion is secured the catarrhal condition will have disappeared.

According to Dr. Harlanston the safest and best treatment is to use after each meal a tablet composed of Distasia, Aspic Pepsin, a little Nux, Golden Seal and fruit acids. These tablets can now be found at all drug stores under the name of Stuart's Dyspepsia Tablets and not being a patent medicine can be used with perfect safety and assurance that healthy appetite and thorough digestion will follow their regular use after meals.

Mr. N. J. Booher, of 2710 Dearborn St., Chicago, Ill., writes: "Catarrh is a local condition resulting from a neglected cold in the head, whereby the lining membrane of the nose becomes inflamed and the poison-ous discharge therefrom passing backward into the throat reaches the stomach, thus producing catarrh of the stomach. Medical authorities prescribed for me for three years for catarrh of stomach without cure, but today I am the happiest of men after using only one box of Stuart's Dyspepsia Tablets. I cannot find appropriate words to express my good feeling. I have found flesh, appetite and sound rest from their use."

Stuart's Dyspepsia Tablets is the safest preparation as well as the simplest and most convenient remedy for any form of indigestion, catarrh of stomach, biliousness, sour stomach, heartburn and bloating after meals.

Send for little book, mailed free, on stomach troubles, by addressing Stuart Co., Marshall, Mich. The tablets can be found at all drug stores.

THE BIKE BUSINESS GROWS EACH YEAR

HUNDREDS OF WHEELS SOLD
IN JANESVILLE.

Where They All Come From, and
Where All the Second Hand Ones
Go, Are Questions Often Asked—
The Machines Sold in This City
Cover All Qualities.

PRETTY NEARLY every one in the city of Janesville rides a wheel nowadays. "Where do the bicycles all come from?" and "where do all the second hand ones go?" are two questions that are often asked. The first one can be answered easily, but the second one is a little more difficult of solution. It is doubtful if any city in the country is better supplied with wheels. Janesville dealers are right up to date, and purchasers have their choice of about all the wheels made. Where and what to buy is often a grave question. Intending purchasers of wheels will find in the accompanying sketches, where wheels are sold in this city, what wheels are sold and at what prices. The bicycle is the invention of the hour, and all people, whether riders or not, are interested in the wheel and its development.

W. W. WILLS' FINE SHOWING
He Sells the Wolf-American "High Art Machines."

The bicycle craze, as it was termed a year ago, is still on as lively as ever, and bids fair to become more than a craze. People in the country are beginning to appreciate their usefulness, and as lively an interest has developed here as was ever thought of in the larger cities. The horse is becoming a thing of the past, so far as being the popular mode of pleasure riding, and as the practical uses of the bicycle develop, the noble equine will altogether lose its prestige. Janesville is well equipped with bicycles of the best makes known in the country, and any person who has the slightest desire for a wheel and can scrape together a few dollars, finds no difficulty in securing a bike suitable in every way to his requirements. Each of the well known make of wheels to be found in the city have special points of advantage. The Wolf-American high art bicycle, of which W. W. Wills, on River street, has the agency, is a machine of the highest order, and is exactly what the name implies, "A High Art Bicycle."

Make a Fine Wheel.
The makers have been workers of steel for a great many years and every article turned out from their factory has the stamp of genuineness which the mechanic appreciates—in fact, the Wolf-American appeals to every skilled mechanic. It was adopted by the police department of New York City after a thorough examination and exhaustive competition. The severest test is put upon a bicycle in that they receive continuous hard riding both summer and winter over cobble stones and roughest roads, during the performance of the arduous duties of men employed in these departments. The Wolf-American has many points of which no other wheel can boast. Its special spring tempered diamond frame with double reinforcements at every joint give it an elasticity and strength which are clearly of great worth. Every frame is subjected to the same spring tempering of which every clock and watch spring receive. The patent eccentric chain adjustment is simplicity itself.

Some of the Features.
The annoyance given by the average chain adjustment is entirely done away with and in no way can the rear wheel vary from alignment. Any part of the Wolf-American wheel is interchangeable. In other words, any piece made for one of these wheels will exactly fit any other. Every device used by the makers is subjected to exhaustive tests by expert mechanics. Every feature is originated and patented and thus is used exclusively on the Wolf-American wheel. Expense is always a secondary factor in the construction of Wolf cycles, and the finest grade of material is invariably used. The bearings are self-oiling and the wheel with one lubrication will run 1,500 miles. It would be impossible in the space we have, to enumerate the excellent points of this wheel, and it is necessary to see it to fully appreciate its advantages. A new departure in the cycling world is the Wolf-American duplex, a three wheel cycle. Mr. Wills has lately received one of them. It can be ridden by two novices, requiring no knowledge of cycling, and for people who cannot ride the ordinary wheel it is perfect. It is not unwieldy or cumbersome and should become a popular mount for many people.

WALTER HELMS' GOOD LINE
Overland, Napoleons and United States
Wheels His Leaders.

A line of distinctly good bicycles is that carried by Walter Helms. One make especially strong is the Rouse, Hazard & Co. of Peoria, Ill. This firm is one of the oldest cycle manufacturers in the country. They have been builders of wheels exclusively for eighteen years and have in that time won a reputation that is untarnished. They make several grades of wheels and the one that meets with particular favor and is perhaps the best known is the Overland. The frames are made from the famous Shelby cold drawn seamless steel tub-

ing. A fact that very few people are acquainted with and yet is true in every particular is that owing to great cost of Shelby tubing, popular priced machines are usually made from brazed tubing. In Overland frames not an inch of such tubing is used. One of the most valuable features possessed by the Overland is the cyclical sprocket wheel. The point of the teeth are rounding with almost flat side giving the chain the best possible hold and a straight pull. The friction is greatly reduced and all noise is done away with. As much attention is given to the bearings on the Overland as on any \$100 wheel and this being the essential point in the running quality of every wheel, it is plainly seen that this wheel has no equal at the price. The price has been reduced to \$45 for either ladies or gentlemen's mount. The Overland special has a two piece crank, but the famous Renson chain adjustment and the rear wheel can be taken off without interfering with the wheel alignment, the bearings are fitted with 3-8 balls and in every way the wheel is equal to any \$80 on the market. \$60 is the price.

U. S. A. Fine Wheel.

The United States bicycle is not an unknown wheel by any means; it is highly recommended by people who ride it, and for grace of outline and practical mechanical points it ranks among the best. It has direct spokes with outside reinforcements, Morse roller chain, the hub and flange all one piece and the popular two piece crank. It is not a cheap wheel by any means and is worth all we ask for it, \$75. The Napoleons and Josephine bicycles are also carried in stock at Helms' and their high grade is familiar to all people interested in cycles. They sell at \$75. Helms sells a very good \$35 wheel, either ladies or mens, called the Faultless, made by the Ralph Temple Cycle Co., of Chicago and warranted for one year, in fact every wheel sold by Helms is warranted for one year. A complete line of bicycle sundries, lamps, bells, etc., are carried by Helms and repairing of all kinds at reasonable prices on short notice is done.

A. H. SHELTON & CO'S FINE STOCK
This Firm Carries the Best Line of Wheels
in the City.

Probably no bicycle factory in the country turns out so many wheels every day as the Crescent manufacturers. Their capacity is 700 complete machines each day. The sales of the Crescent last year amounted to 65,000. Every part of the wheel is manufactured in the factory, and it is plain to be seen that the great popularity of the Crescent comes from its moderate price and extreme goodness. The Crescent No. 9 at \$50 is the best wheel and the biggest lot of bicycle at the price to be found on the market. Pretty strong terms you may think, but nevertheless a fact. The wheel embodies through the factory's system, points and devices that other makers cannot afford to put on any but their \$100 wheels. The talk is not idle. If the statements could not be verified there would be no great sale of Crescents, but the man or woman who rides a Crescent tells a friend of the easy riding qualities and the chances are that if this friend ever buys a wheel it will be a Crescent. The \$75 Crescent is a little better wheel of course, and has some points not possessed by the \$50 wheel.

Were you ever astride a Victor? If you haven't been you ought to. If you have, you know that it will outlast any other wheel. You know that its bearings are the bragging points and you also know that at \$60 for the '96 model it is the cheapest wheel that can be bought. There is little difference between the '96 and '97 model and every Victor point is found in the '96 model.

Have the Best Line

It may be said that A. H. Sheldon & Co. handle the best line of wheels in the city. The Stearns "yellow fellow" for instance, made by the old reliable Stearns & Co., who have been workers of steel for years, and who make and stamp their name upon every part of the Stearns wheel even to the chain links. The Stearns is a good wheel and with the purchase of one you have the satisfaction of knowing that there is no better wheel made. Of graceful outline, the finest finish, the Stearns leads them all for beauty. The '96 patterns sell at \$55 and no doubt they are true bargains. The '97 model Rambler, has been reduced to \$60 and \$80, one of the best and oldest makes of wheels on the market. '97 \$100 Phoenix wheels reduced to \$54. This wheel is well known in this vicinity. \$60 Colby special reduced to \$34, very pretty and serviceable wheel. Sheldon & Co. have some great bargains for ladies at \$32, and in fact, a number of makes at low prices that space forbids our speaking of. The great number of sales thus far show the great popularity that "Sheldon's store" has for bicycle purchasers.

A. C. MUNGER SELLS MONARCHS
Famous Machine Represented by the Well-known Merchant.

The famous Monarch is handled by A. C. Munger. Over 50,000 of these wheels were turned out last season. The Monarch has individual points that are numerous; for instance the crank mechanism. It is a unique form of the two pieces of middle-union type. So far as strength is concerned they are practically one piece, yet both cranks and sprockets can be instantly removed without so much as disconnecting the chain or in the least disturbing the adjustment of the bearings. The detachable sprocket is another good device. In fact the good points are so numerous that it is impossible

to enumerate them all in the space we have. Every rider of a Monarch is loud in the praise of the Monarch worth. Munger is making exceedingly low prices on the '96 pattern. The difference between the '96 and '97 pattern is very slight and a great object can be made to the purchaser of one of them. The King and Queen wheel made by the Monarch Cycle Works, Munger sells at \$45, and the Defiance at \$50. The Cooper Special also made by the Monarch people, is an extraordinarily good wheel, very light running and sells at \$75. The '97 model Monarch is reduced from \$100 to \$80. The Ligna laminated wood frame bicycles are considered by many to be superior to steel frame wheels and certainly have strong points. The frame will not buckle, break or kink and will maintain a crushing test ten times greater than

steel tubes and at the same time have much more elasticity than a steel frame.

The manufacturers request that each wheel be returned to them at the end of the season. They overhaul them thoroughly, store them all winter and return in the spring, good as new and without charge. The wheels are fully warranted and sell at \$50. It would pay to see them. Munger can make wheel buying of him an object. It is to buyers' interest to look over his stock.

JAMES SUTHERLAND & SONS' LINE.

"The World" Holds Every Record For
Speedy Work.

Every record from one quarter of a mile up to one hundred miles has been broken and substantially lowered on the World cycles during the last year. Never before in the history of cycling have so many records been broken on one make of wheels nor on all other makes combined. The World stands pre-eminent in this respect. Its popularity has grown to great extent with Janesville riders. It embodies all the good points for fast riding, rough or smooth road riding, in fact all the hardest riding.

The agency of J. Sutherland & Sons may well feel proud in representing so good a mount. The new and effective features to be found only in the World such as absolutely dust proof crank hanger bearings, exactly flash fittings, new fastenings for handle bars and seat posts, triple fork crown and one piece crank axle are well worth the consideration of every person interested in bicycles.

The '96 World of which Sutherland's have sold a goodly number of this season's sell for \$60 and are a bike bargain.

Sutherland's are showing a great line of medium priced wheels at from \$35 to \$50. The Clifton at \$35 is of good responsible make and very cheap at the price. The Arabian bicycles made by Ames & Frost, manufacturers of the Imperial wheel at \$40, are declared to be the best wheels of the price shown in the city. The same material, same workmanship as is put into the Imperial wheel is found in these Arabians. They are fully warranted in every way. The Pattee and Pelham wheels are both popular mounts and are offered at very low introductory prices.

RACES ARE TO BE HELD HERE
Track Events To Occur at the Driving
Park—Other News For Cyclers.

A series of local bicycle races with Rockford, Beloit, and Janesville's best racing talent as competitors, are to be given in this city at the Driving Park, commencing next month. A meeting is to be held at Beloit, next Saturday evening, and J. G. De Long and W. M. Pfennig will be Janesville's representatives. Edwin Camlin of Rockford, has the Forest City cyclers now well in hand, while Frank Van Wort will manage the Beloit riders' club.

Beloit Party Here.

Several Beloit cyclers were in the city today on their bicycles to witness the parade. Among the party were: Mr. and Mrs. E. S. Greene, Mr. and Mrs. L. H. Britton, Mrs. McIntosh, Mrs. Hendley, Miss Todd, and Messrs. E. Britton, W. A. Hendley and M. M. Britton.

Some Other Wheel Talk.

E. H. Paige rode here from Waukesha yesterday.

WASHINGTON BARRIAGE rode to Rockford and return yesterday.

HENRY VILAS and Charles Gregory rode down from Madison yesterday.

J. G. DeLong rode up from Rockford Sunday evening in two hours and twenty minutes. The distance is 32 miles.

Those who rode down to the Forest City yesterday and spent the day were Fred Capelle, Burt Van Houton, B. L. Watt, E. V. Whiton, Jr. and C. W. Bliss.

HENRY KLINE was out on his new Wolf-American, Sunday and rode 104 miles in nine hours and nineteen minutes. Considering that he had a head wind half the way he felt fairly well satisfied with the performance.

WORKMEN WILL HELP CITY

Donate Part of Their Time to Macadamize a Street.

Janesville men who work by the day as street laborers and teamsters are willing to donate a portion of their time if the city will macadamize Washington street its entire length from Highland avenue to the cemeteries. They say they need the work, and in order to obtain it they will make the city a proposition.

The macadamizing that is now being done on Washington street will end at Highland avenue.

The plan now being discussed contemplates improving the east side of the street. William G. Brandt, the well known teamster, is one of a party who are now at the head of this movement.

Men Are Willing

Mr. Brandt, in speaking of the proposed movement, says that he has talked with laboring men all over the city and they seem to be in hearty favor of the scheme. They are willing to donate to the city a portion of their time on condition that they are to be paid for the balance of it at the regular city scale of wages. It is said that a committee is now at work and will soon lay the matter before the authorities.

The majority of the people who have been approached on the subject seem to favor the plan. This is especially true with the teamsters and others who make many trips to the cemetery. The greater part of the expense would be the labor, but the offer that the laboring men have put before the public would enable the city to do the work cheaply.

Banker Hale Found Guilty.

Nashville, Tenn., May 31.—In the criminal court at Lebanon in the case of the state vs. W. E. Hale, the jury found him guilty of unlawfully receiving deposits, and fixed his sentence at five years in the penitentiary. Hale was cashier of the Bank of Watertown, which failed about a year ago.

FACTORY INSPECTOR'S WORK
IS FINISHED.

Found the Relations Between Employer and The Help, Especially Pleasant
No Violations of the Child Labor Clause in the Law—Business Is Fairly Good.

In all the local factories together, 2,606 men and 601 women are employed; the means of escape in case of fire are ample; and the relations between capital and labor are satisfactory in every way.

This statement is made after a week's work on the part of Assistant Factory Inspector J. J. Williams, who today forwarded his report to Commissioner Erickson at Madison. During the past six days Inspector Williams has been busy in this city. Of the local factories, the Janesville Cotton company employs the largest number of people, the list including 360 names. The greater portion of them are women. The Janesville Machine Company ranks next.

Business Fairly Good

Inspector Williams' report shows that business with the local manufacturer has been fairly good. While the number of laborers employed in some factories are less this year than they were a year ago a noticeable increase is to be seen among others which brings the average up to about that of last year.

One of the most important as well as interesting discoveries made during the inspection was the fact that good will and mutual satisfaction seemed to exist between labor and capital.

"The average manufacturer in this city," says Mr. Williams, "seems to take a personal interest in his help; and in one instance I found that the proprietor had, on hiring his men, instructed them in such matters as speaking the truth and in being strictly honest."

An inspection of the schools was made with Chief Spencer, and proved most satisfactory. But slight changes were made in this report over that of the last inspection. As the law reads, no child under fourteen years of age shall be employed in any factory or workshop, and in not a single instance was this law violated in this city.

Inspector Williams left today for Evansville.

BRAINS AND KIDNEYS

Abusing One Brings on Diseases Affecting Both.

Why Men Die of Bright's Disease—This Disease, as Well as Any Other Kidney Ailment, May Be Cured by Dodd's Kidney Pills.

St. Paul, Minn., May 31.—Men who use their brains are prone to Bright's Disease. No class of brain-workers more than editors and newspaper men. The intense activity compelled by their calling consumes great quantities of their vital energies. They get little rest. They are constantly "on the go," physically as well as mentally. They eat irregularly, and like most other people, eat food that is not good for them.

But none knows better than they how prevalent is Bright's Disease. The dispatches are full of obituaries of men cut down in the prime of life by kidney maladies. One of the brain-workers in this country has known—J. B. McCullough, of the St. Louis Globe-Democrat, actually killed himself because he found he was dying of Bright's Disease. He suicided by dashing his brains out, leaping from his window to the pavement below.

No doubt his life could have been saved by the recent discovery of a medicine that is a true and efficacious remedy in all cases of Bright's or other kidney diseases—Dodd's Kidney Pills. Many a life has been saved by it. Incalculable suffering has been allayed by it.

Here in St. Paul, a printer and a barber on Newspaper Row testify to cures of kidney complaint.

Barber.

DODD'S MEDICINE CO.
Gentlemen:—I was a sufferer from Lumbago for two years. I could get no relief from taking medicines. I heard of Dodd's Kidney Pills and purchased a box. After using them, I can safely say they are one of the best medicines I have ever used. I have none of that heavy headache now, and am certain that they effected a permanent cure.

DODD'S MEDICINE CO.
Gentlemen:—I was troubled for three years with my back, caused by my kidneys being out of order. My work compels me to be constantly on my feet and bending over. It has always been hard on me. I tried several so-called kidney cures, but none could touch the spots like Dodd's Kidney Pills. I have used two boxes, and am now cured of this painful disease, and any person who calls at my printing office will be glad to talk with them about my cure.

DURRANT TO HANG.

Gov. Budd Orders the Death Watch on the Prisoner.
Sacramento, Cal., May 31.—Theodore Durrant will hang June 11, one week from next Friday. Gov. Budd Sunday telephoned that much in effect to War-

THEODORE DURRANT.

den Hale of San Quentin, at the same time ordering the death watch placed upon the prisoner.

Immediately after telephoning this message to Warden Hale, the governor was driven in a close carriage to the depot, where he took the train for San Francisco. Notwithstanding the fact that the governor has made known his decision and that the telephone message has leaked out, the same secrecy is being maintained regarding the statement which the governor has prepared.

Fine Wheat Crop Reported.

Sioux Falls, S. D., May 31.—Special reports from every county in the state show that the crop conditions east of the James river are as favorable as any ever recorded, while west of the James they are good, though rain is needed. Lincoln, Minnehaha, Moody, Lake, McCook, Brookings, Hamlin, Codington, Spinks, Hughes, Brule, Douglas and Kingsbury report most favorable conditions, a fine stand of grain, larger acreage than heretofore and the best of feeling among the farmers. Beadle, Bonhomme, Davison, Hutchinson, Jerauld, Sanborn and Turner report good progress so far, but the ground is getting dry and rain is needed.

Is in "Bankers' Row."

Columbus, Ohio, May 31.—John F. Johnson, the Logansport (Ind.) bank wrecker, was brought to the Ohio penitentiary Saturday night from Indianapolis by two deputy United States marshals. Johnson was very calm, but felt his position keenly as he was ushered behind the barred gates, where he will remain six years and four months if his record is clear and he is not pardoned. He was given a cell in the famous "bankers' row."

Yale Won from Wisconsin.

New York, May 31.—Yale kept ahead of Wisconsin the entire two miles at Lake Saltonstall Saturday, and won easily by three lengths. The time was 10:54. Wisconsin did not get a very good start, and the Yale boat shot ahead at once, leading by a length at the quarter-mile mark, and increasing this to four lengths half a mile from the finish. Wisconsin finished strong and cut Yale's lead, the latter not exerting itself to the limit.

You Die To Win.

That is, in ordinary every day life insurance. We have a plan that will commend itself to your good sense. By it you live to win. Amongst the most torturing and deadly diseases, is Bright's Disease of the Kidneys.

Dr. Hobbs Sparagus Kidney Pills

will absolutely insure you against death from this disease, and by causing your kidneys to perfectly filter, cleanse and purify your blood, will render you free from Rheumatism, Anemia, Gout, Diabetes, Inflammation of the bladder and Neuralgia.

And the premium is but 50 cents a box. Surely this is the best and cheapest life insurance in the world.

I Give All Praise to Hobbs Sparagus Kidney Pills.

Neenah, Wis., Jan. 25, 1897.

When a man has any serious troubles with kidneys as I have had and has for years tried all kinds of kidney medicine without getting any relief from them, it is natural if he tries a new remedy and it cures his aches and pains, he should say a word in its favor. I have had kidney trouble and backache so long that I don't know when it commenced. A little over a year ago I was not able to get out of bed without help for four weeks. Saw your advertisement of your Sparagus Kidney Pills and thought I would try them. After taking them three days I was able to get out of bed alone and tend to my business. I give all praise to Hobbs Sparagus Kidney Pills.

Turnfest at St. Louis.

St. Louis, Mo., May 31.—The Turner organizations of this city united at the fair grounds Sunday in the largest festival in the history of the St. Louis district. Fine weather brought out a crowd, which was enabled to view some of the postponed events of the National Turnfest held here during the early part of the month. Six thousands Turners, comprising men, women, boys and girls, joined in mass exercises.

Prefer Death to Poverty.

Lowell, Mass., May 31.—The bodies of Maria and Frances Butler, spinsters, about 50 years of age, who had resided in this city for sixteen years, were found in the kitchen of their home Saturday. Both apparently had died of asphyxiation by gas. They committed suicide in consequence, it is believed, of heavy financial losses due to the failure of several banks in Nashua.

Convention of Credit Men.

Kansas City, Mo., May 31.—Elaborate preparations have already been made by the local business men for the reception of the 400 or more delegates expected to be here at the second annual convention of the National Association of Credit Men, to be held here June 9, 10 and 11. Unusual interest in the convention is being manifested by credit men all over the United States.

May Snowfall in Wisconsin.

Oshkosh, Wis., May 31.—Snow fell here Sunday morning, and at noon the thermometer registered 45 degrees, the lowest for May in many years.

GIVES STRENGTH TO MEN

Free To All Who Are Weak And Worn

A METHOD TO CURE AND INCREASE THE POWER.

It is a remarkable fact that a man never appreciates the sufferings of others until he himself has passed through the fire of pain or remorse. Then it is that he looks around for those who are suffering; he wants them to profit by his experience; he gives his time and money gladly for the

benefit of others and never tires of his zeal. There are plenty of men weak and worn out, struggling with remorse and fear, the natural outcome of habits that brought incapacity, a sense of loneliness and a feeling as if the best side of life had been banished forever. Such men should write to Thomas Slater, Box 294, Kalamazoo, Mich. He will send free by mail, in a plain, sealed envelope, full particulars about the method he used, and this will enable any man to get a complete cure at home. It is the method that Mr. Slater used to cure himself of the troubles that sap the strength and vigor and also enlarged his organs to natural size. The cure was complete, so satisfying and such a wonderful change in his former condition that he will gladly tell others all about it, sending all particulars. He figures that he doesn't know of a better way to show his appreciation of his own cure and sufferings of others. There must be generous men in this world to offset the tide of avarice. Write to Mr. Slater—it will cost nothing for his description and method.

That terrible wash-tub!

This is the way it looks to the women who do their washing in the old-fashioned way. They dread it—and no wonder. All because they won't use Pearlina. Use Pearlina—use it just as directed—soak, boil and rinse the clothes—and the wash-tub won't be a bugbear. You won't have to be over it enough for that. No hard work—no inhaling of fetid steam—no wearing rubbing—no torn clothes—nothing but economy.

Send it Back
Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearlina." IT'S FALSE—Pearline is never peddled, and if your grocer sends you something in place of Pearlina, be honest—send it back.
